## Profile

---

Experienced Data Scientist with a demonstrated history of working in the research sectors of various industries. Skilled in Data Science, Big Data Analytics, Data Engineering, Computer Vision, Natural Language Processing, Statistical Modeling. Strong engineering professional with a Bachelor of Engineering focused in Computer Science from University BDT College of Engineering and a PG Diploma in AI and ML from IIIT-Bangalore.

## WORK EXPERIENCE

---

*November 2022 – Present*

### Lead Quantitative Analytics Specialist

Wells Fargo, Bengaluru, India

- Involved in solution design of Supplier Analytics for Equipment Finance and Global Receivable Trade products
- Developed Borrower Quality Review (BQR) process automation resulting in savings of 150k USD per year, resulting in "Innovation Award - 2024" for the project
- Involved in Visa Advanced Authorization fraud model validation and monitoring
- Developed RegW Overdraft automation process
- Involved in developing Payment Analytics solutions for Customer Behavior analytics
- Involved in developing reports for Global Treasury Management

*June 2022 – November 2022*

### Senior Consultant, Data Science

Holcim, Bengaluru, India

- Involved in developing Demand Forecasting solution for volume production
- Involved in developing rule based system for alerts generation
- Involved in developing Ready Mix Concrete design optimization
- Involved in developing Marketing Solution for Lead to Customer conversion process
- Involved in ETL solutions

October 2017 – June 2022

## Data Scientist

Extentia Information Technology, external employee for SAP Labs, Bengaluru, India

- 5 years of experience in design and development of Machine Learning and Statistical Modeling solutions for industries such as Banking, Supply Chain Logistics and Innovation Projects
- Developed Supply Chain Demand solution for forecasting future demand based on historical data
- Developed Supply Chain LeadTime prediction for business planning
- Developed accident forecasting model based on multiple segmentation of data to better allocate the resources for accident risk aversion
- Developed a multiple persona based dashboard for logistics industry to provide insights into shipping costs
- Developed banking solutions such as overdraft prediction, overdraft risk mitigation through product recommendation and customer churn detection
- Developed text sentiment analysis model using social media handles such as twitter and facebook
- Developed robotic process automation solution for periodic web scraping and extraction of information from public domain
- Developed multiple solutions using various SAP products such as SAP Data Intelligence Platform, SAP HANA, SAP Analytics Cloud, SAP ML Foundation, SAP AI Core
- Developed NLP solution using SAP AI services such as SAP Document Information Extraction, SAP Business Entity Recognition, SAP Data Attribute Recommendation
- Have presented MLOps session in SAP DKOM-2022 event
- Have been part of various multi-team innovational projects including ETL processes, data migration, data generation processes, data masking, object detection, product similarity solutions

September 2014 – September 2017

## Technology Consultant

Hewlett Packard Enterprise, Bengaluru, India

- 3 years of experience in development of Big Data Analytics and Statistical Modeling solutions for Telecommunication and Banking industries
- Developed multiple solutions using HPE database Vertica with various Hadoop distributions such as Hortonworks, Cloudera
- Developed multiple clustering solutions with Hadoop ecosystem for modeling customer density, customer segmentation and customer propensity score calculations
- Developed multiple ETL solutions such as analyzing raw data, data transformation, populating the enriched data to different data stores and report generation
- Developed rule based systems for decision making process, trigger action models and alarm notification systems

## SKILLS

---

### Technical skills

Programming Languages

- Python, R, SQL, Java, C++

Frameworks/Tools

- Tensorflow, PyTorch, RStudio, Git, Docker, Microsoft Office Suite, PySpark, Hadoop, AWS(Sagemaker, Glue, Lambda, Redshift, S3), Tableau, PowerBI, SAP Analytics Cloud, SAP Data Intelligence

Database

- SAP HANA, HPE Vertica, MySQL, Amazon Redshift, Teradata, SQLServer

OS

- Windows, Linux(Ubuntu, Red Hat, CentOS)

## EDUCATION

---

2021 – 2022

### PG Diploma in Artificial Intelligence and Machine Learning

International Institute of Information Technology, Bengaluru

- Graduated with CGPA 3.54

2010 – 2014

**Bachelor of Engineering degree in Computer Science**

University BDT College of Engineering, Davanagere, VTU University

- Graduated in First Class with Distinction
- Qualified GATE examination in the year 2014

**Languages**

English – Fluent

German – Elementary

Hindi – Fluent

Kannada – Native
